EDUCATION

Bachelor of Technology in Computer Science
Sagar Institute of Research and Technology | 2023 – 2027

TECHNICAL SKILLS

• PROGRAMMING LANGUAGES

Java (OOP, Collections, Multithreading),
Python (Basics)

• WEB DEVELOPMENT

HTML, CSS, JavaScript, Ajax/Fetch, React JS,
Bootstrap, Tailwind, TypeScript

• BACKEND DEVELOPMENT

Spring Boot, JDBC, Servlet, JSP

• DATABASES

MySQL, SQL

• CONCEPTS

Data Structures & Algorithms (Java),
REST APIs, Authentication,

ACHIEVEMENTS

- Solved 150+ DSA problems on LeetCode
- Full Stack Java Developer Certification
- Data Structures & Algorithms Certification (Java)
- 3rd Prize in Group Discussion (GD)
- Built multiple real-world web applications.
- Hands-on experience with API integration and secure authentication..

SOFT SKILLS

- Team Collaboration
- Communication
- Adaptability
- Leadership

PROFILE

Entry-level Software Developer skilled in Java and Full-Stack Web Development, with hands-on experience building real-world applications like an AI-powered job portal. Strong foundation in DSA, problem-solving, and secure authentication systems, eager to contribute to scalable software solutions.

PROJECTS

BlogHub - Blogging Application

GitHub: <https://github.com/pranjalsahu856/BlogHub-Application>

Spring Boot | Spring Data JPA | RESTful API | HTML | CSS | JavaScript | Bootstrap

- User Registration, Login & Logout with session-based authentication
- Admin & User roles with Role-Based Access Control (RBAC)
- Create, Read, Update, Delete (CRUD) operations for blog posts
- Category management (Admin can create, update, delete categories)
- Category-based blog filtering for users
- Authentication using Spring Boot Interceptor
- Global exception handling for proper error responses
- RESTful API integration with frontend

Votezy - Voting Application

GitHub: <https://github.com/pranjalsahu856/Votezy-Application>

Spring Boot | Spring Data JPA | RESTful API | HTML | CSS | JavaScript | Bootstrap

- Voter & Candidate Registration
- Secure Vote Casting with One Vote Per Voter rule
- Only registered voters allowed to vote
- Prevents voting for non-existing candidates
- Real-time election result display
- RESTful API integration with input validation & exception handling
- CRUD operations using MySQL database

HireSense – AI-Powered Job Portal

GitHub: <https://github.com/pranjalsahu856/HireSense>

Java | JDBC | Servlet | JSP | HTML | CSS | JavaScript | Bootstrap | Affinda API

- Built a full-stack job portal with role-based authentication for Admin, Employer, and Job Seeker.
- Implemented OTP-based user registration for secure onboarding.
- Integrated Affinda Resume Parsing API to analyze resumes and generate job-role match scores.
- Developed admin dashboards to activate/deactivate users and job postings.
- Enabled employers to post jobs and download candidate resumes.
- Implemented advanced job search and filtering functionality.
